

Title: Data Science Intern

Location: Hyderabad, India

Duration: 6 months

About Us:

KLVIN is an innovative startup at the forefront of AI, IoT, and Blockchain technology, revolutionizing industrial operations. Based in Hyderabad, we are committed to leveraging technology to enhance safety and efficiency in industries. Our team consists of creative thinkers and problem solvers, passionate about making a tangible impact.

Role Summary:

KLVIN is inviting applications for a Data Science Intern position. This role is ideal for someone with a strong interest in AI algorithms and processes, and a desire to apply data science in the context of IoT for industrial applications.

Key Responsibilities:

- Assist in developing and refining AI and machine learning algorithms.
- Analyze complex datasets to extract insights and inform decision-making.
- Collaborate with various teams to understand and fulfill data requirements.
- Participate in the full lifecycle of data science projects, from ideation to deployment.
- Optimize existing AI models and explore new methodologies.
- Document and communicate analytical findings and methodologies within the team.

Required Skills and Qualifications:

- Enrollment or recent graduation in Data Science, Computer Science, Statistics, or a related field.
- Understanding of machine learning, statistical analysis, and AI.
- Proficiency in programming languages such as Python or R.
- Experience with data science libraries (e.g., Scikit-learn, TensorFlow).
- Strong problem-solving skills and analytical mindset.
- Effective communication and teamwork abilities.

Preferred Skills:

- Familiarity with data visualization tools.
- Exposure to big data technologies.
- Previous projects or experience in data science or AI.

Benefits:

Hands-on experience in a startup environment, working on cutting-edge technologies.

Opportunity to contribute significantly to challenging projects.

Mentorship from experienced professionals in data science and AI.

How to Apply:

Candidates interested in this opportunity at KLVIN should send their resume and a cover letter explaining their interest in data science and AI to hiring@klvin.ai. Please include any relevant work or project portfolios.
