

Title: Full Stack Developer Intern

Location: Hyderabad, India

Duration: 6 months

About Us:

KLVIN is an innovative startup at the forefront of AI, IoT, and Blockchain technology, revolutionizing industrial operations. Based in Hyderabad, we are a team of creative thinkers and problem solvers, dedicated to using technology to make a real-world impact.

Role Summary:

KLVIN is seeking a talented Full Stack Developer Intern to join our dynamic team in Hyderabad. This role is an exciting opportunity to work on the front-end and back-end aspects of our web applications, creating user-interface components and integrating them with server-side logic.

Key Responsibilities:

- Develop and maintain web applications using various programming languages and frameworks.
- Actively participate in all phases of the development lifecycle, from concept design to deployment.
- Collaborate with the team to design, develop, and implement new features and functionalities.
- Contribute to troubleshooting, testing, and maintenance of the core product software, ensuring optimal functionality and performance.
- Engage in continuous learning and improvement, exploring new technologies and approaches.

Required Skills and Qualifications:

- Currently enrolled in or a recent graduate of Computer Science, Software Engineering, or a related field.
- Proficiency in front-end technologies like HTML, CSS, JavaScript, and React.
- Experience with back-end programming languages such as Node.js, Python, or Java.
- Understanding of database systems like MySQL or MongoDB.
- Strong problem-solving skills and a passion for technology.
- Effective communication skills and the ability to work collaboratively.

Preferred Skills:

- Hands-on experience with cloud services (AWS, Azure, etc.).
- Familiarity with version control tools, preferably Git.
- Prior internship or project experience in full-stack development is a plus.

Benefits:

- Work on impactful projects in a startup environment with real-world applications.
- Receive mentorship from experienced professionals in the field.
- Develop and enhance your skills as a full-stack developer with hands-on experience.

How to Apply:

Interested candidates should send their resume and cover letter to Hiring@klvin.ai . Please include your GitHub profile or portfolio of relevant projects, if available.
